Xerox® Mobile Print Solution

Solution

Increased capabilities, security and functionality across a wide range of mobile devices. Optimal end-user experience.

Customer's Existing Environment

A major manufacturer of containers employs a large, virtual workforce that services customers across Europe and around the world. With multiple offices and a mobile workforce, printing documents from mobile devices became a difficult and often frustrating chore, causing many workers to lose time and productivity.

Results and Benefits

The manufacturer determined that the Xerox® Mobile Print Solution was the best fit for its needs, giving its highly mobile workforce a single print solution that offered ease of use and robust functionality across multiple mobile devices. The Xerox® Mobile Print Solution clearly opened the door to a new business relationship with a major European manufacturer.
